Sign of  the Crab

July 1, 2015

Dear Valued California Customer:

Strom Plumbing by Sign of the Crab is doing all in its power to support the efforts to cope with the California drought. In pursuit of that goal, the California Energy Commission Appliance Efficiency program has issued new guidelines that allow California retailers and consumers alike to be assured that everything that can be done is strictly followed according to their current requirements. More information regarding the new regulations can be found at <http://www.energy.ca.gov/appliances>.

We have many items that are not affected by these newly adopted California regulations and are available for purchase without restrictions.

Our Strom Plumbing kitchen & lavatory approved faucets can be found on the California Energy Commission Appliance Efficiency database. Our shower heads, hand showers and diverter faucets are currently pending listing on the website. Companies that do not appear in the database are restricted from selling these products in the state of California. Therefore, at this time we cannot sell our shower heads, hand showers and diverter faucets in the state of California. Hopefully this will only be for a short period of time.

We do appreciate your business and your patience. If you have any questions or concerns, please do not hesitate to contact a Sign of the Crab Customer Service Representative at 800-843-2722 or visit our website for updates to our product listings at www.signofthecrab.com.
